Re: WT Docket No. 00-110
CC Docket No. 92-105
Second 911 Transition Report
Various Counties in Illinois

Dear Ms. Dortch:

This report is filed pursuant to paragraph 45 of the Commission's Reports and Orders in the above-referenced proceedings, released December 11, 2001.

Southern Illinois RSA Partnership d/b/a First Cellular of Southern Illinois is a wireless carrier providing cellular service in the 24 counties comprising Illinois RSAs 8 and 9. As reported in our filing last March, all 911 calls are routed to the nearest Illinois State Police PSAP (currently located in Ullin, Illinois) for the counties where a local PSAP has not been identified.

Listed below are the counties in RSAs 8 and 9 that were identified in Appendix D of the Commission's Reports and Orders as not having full implementation of basic 911 service. Included in the listing is information as to where we currently route 911 calls, unchanged since our March 2002 filing. We have not encountered any problems in this regard.

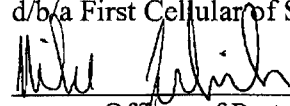

Alexander – Illinois State Police District 22, Ullin, IL
Clay – Illinois State Police District 12, Effingham, IL
Edwards – Illinois State Police District 19, Carmi, IL
Hamilton – Illinois State Police District 19, Carmi, IL
Hardin – Illinois State Police District 22, Ullin, IL
Jefferson – Jefferson County Sheriff's Department, Mt. Vernon, IL
Pope – Illinois State Police District 22, Ullin, IL
Wayne – Illinois State Police District 19, Carmi, IL

Accordingly, the undersigned hereby certifies to the Commission that we have completed the technical and routing elements necessary to fully implement the provision of basic 911 service in the above-listed counties where we currently provide cellular service.

Very truly yours,

Southern Illinois RSA Partnership
d/b/a First Cellular of Southern Illinois
